

THE JAMESON OPERATIONS

VISION DAYS

Suzann
Harms

As an owner of multiple dental practices, you feel unique stresses and have particular operational expectations that are unique just to you as a dental business owner. At Jameson, we recognize these specific questions and needs that you may have unanswered.

Let Jameson help you become more strategic, more streamlined and clear on how to progressive forward with positive growth in your business. Invest in a program that brings all of this to you.

INVEST IN JAMESON OPERATIONS VISION DAYS

Led by veteran executive of the corporate and large group dental world, Suzann Harms, Jameson's Chief of Operations Development, this program coaches you through the operations needs of your business, helps you streamline your existing operations and prepare for successful growth in both your existing practices and the additional practices you may be adding in the future.

Your Vision Days include:

- **Onsite work with Suzann Harms in developing your plan**
- **Review of current structure including ownership, locations, and communications**
- **DSO review**
- **Vision casting**
- **Goal setting**
- **Creation of the strategy timeline & next steps**
- **Identify top three opportunities for growth and improvement**

Ready to get your vision and your practice in alignment? Ready to identify the needs and opportunities within the operations of your business? Have Suzann join you at your practices for a Jameson Operations Vision Day. Focus in on your business and build out a plan of progress that can leap you forward either with Jameson's help or on your own. Our success is based upon your success.

"Clear vision and strategic operations can equate to an astronomical difference in your dental business and its growth."

– Jess Webber, MHA
CEO, Jameson
